LOCAL BUILDER MINCOVE HOMES CLAIMS YET ANOTHER AWARD

On Saturday 20th of July, several employees from Mincove Homes attended the Master Builders NSW Regional Excellence Awards in Ulladulla. The event is held as a celebration for local builders of the region and gives them all a chance to showcase their best work. Mincove Homes entered a stunning Shell Cove project in the "Contract Homes" category only to emerge victorious! Director John Howle was on hand to accept the award on the night.

This is Mincove Homes' 4th Master Builders Association (MBA) award, a testament to the outstanding quality and attention to detail that goes into each one of their homes from not only the skilled trades on site but the hard-working team behind the scenes. The judges were impressed by the presentation of the home, making specific comments about the tiling & quality of the kitchen.

"This is a great achievement not only for Mincove Homes but for our wonderful suppliers; Leisure Coast Kitchens, Tile Direct, Harvey Norman Commercial among others all deserve a special mention for their efforts too!" - said Marketing Coordinator Reece Conley

"A big congratulations has to go to the clients, they worked alongside Mincove during the whole process from sales to construction and their commitment to this project is really reflected in the end product." Production Manager Bede Gillard added.

The house is located in Shell Cove, it features a modern, architectural facade complemented by some beautiful landscaping and feature timber work. The house has showstopping features throughout, from the intricate herringbone tiling to the well-equipped and stylish kitchen and the well-equipped entertaining area - there's too many to mention.

Overall, a great achievement for a local, family-owned business and further proof that local businesses can punch well above their weight on the grand stage.
