### FIREPLACE TRENDS TO GET YOUR HEARTH PUMPING

Jetmaster Heat & Glo Expo August 9 – August 11

Jetmaster Heat & Glo is Australia's leading company in wood, gas and electric fireplaces.

Homeowners and renovators are invited to attend the Jetmaster showroom, 444 Swan Street, Richmond, August 9 – 11, to experience an end of season fireplace Expo like no other.

The aesthetics of fireplaces are a hot trend in 2019, with some being placed in the centre of a room, others freestanding, and others just look stunning like the brand new ultra-modern, European design Spin and Circle from VisionLINE.

The Expo will feature over 40 working models from Jetmaster, Heat & Glo, Quadra-Fire, and VisionLINE, with experts on hand to answer all questions and give advice on heating the home.

Visitors will be stoked with the massive mark downs on ex-display and discontinued lines, plus big savings right across the Expo weekend.

Those in the market for a fireplace update can check out the new i30X Insert, the perfect replacement for that old period or gas heater - chat to the team about the benefits of a balanced flue insert and how easy it is to install one.

## MEDIA RELEASE

The new Quadra-Fire Explorer III cast iron wood stove will draw admirers like moths to a flame. Performance never looked so good. Powerful, efficient and built to last with a solid steel welded firebox, maximum heat and clean burn, the Explorer III would be at home in a rustic or contemporary setting.

Whether you're in the market for a new fireplace, a new flue, accessories, or just some tips on heating your home, the Jetmaster Heat & Glo Expo is a must for homeowners and renovators alike.
